Reasons for Application

This will be the third year in a row at the University of Copenhagen that I will be in the masters program at DIKU. I have come to really enjoy my time here, and I am also very glad to have the opportunity to help teach new students. I really enjoyed building assignments for Advanced Programming and understanding the questions for Programming Logic.

I always enjoy seeing peoples' faces when they understand a new concept, and there is nowhere better to do that than as a TA!

I have had a lot of years experience doing this, and I really enjoy it. I would be honored to work alongside another course at KU.

Please see the attached "Teaching portfolio" apply.pdf for courses I am applying for.
