Jenny-Margrethe Vej

Curriculum Vitae

Experience

2015–Current **Teachers Assistant**, University of Copenhagen, Copenhagen.
For the second time, I am a TA in *IT Project Management and* and *Project Course: System Development*

2014–Current **Academic Mentor**, University of Copenhagen, Copenhagen.
I have been hired as a coordinating academic mentor for the new students this year. We have arranged a weekly student café where the students can get help to their assignments.

2013–Current **University Relation Ambassador**, IBM, Copenhagen.
Project management of all IBM Denmark's activities at the IT University of Copenhagen and Computer Science, University of Copenhagen, which includes:

- Coordination, planning, execution and evaluation of all major projects
- Strategy development and detailed planning
- Stakeholder management
- Hosting and supporting recruitment fairs on campus

2013–2013 **Consultant**, IT Minds, Copenhagen.
I worked with IT Minds for 9 month as a Consultant. I worked with different types of customers in C#, Javascript, HTML 5, CSS and Umbraco, among others. I also assisted the Project Manager.

2011–2013 **Teachers Assistant and Mentor**, University of Copenhagen, Copenhagen.
I have been a TA in 3 different courses; *Intoduction to Programming* where the students learn SML, *IT Project management*, and *Project Course: System Development*. I have also worked as a mentor for new students.

2010–2013 **Project Manager**, Mobilevalue ApS, Copenhagen/Aarhus.
I was headhunted by the boss Allan Baadsgaard and worked as a Project Manager in a company starting up new telecommunications companies. I have worked with DSB (the Danish State Railways), Moblos, ZitCom and Oberthur (SIM card manufacturer) among others.

2008–2010 **Support, Operations and Project Coordinating**, UnoTel A/S, Companymobile A/S & ZitCom A/S, Skanderborg.

Education

2014–2016   **Master in Computer Science**, *University of Copenhagen*.

I started my master i September, and I have decided to have a didactics, cognitive and communicative view on it. I hope to write one or two small projects before my thesis, and I will also end up having courses in *Advanced Didactics*, *Cognition and Audiovisual Communication* and *Empirical Psychology, Cognitive Neuroscience and Communication*.

2010–2014   **Bachelor in Computer Science**, *University of Copenhagen*.

At the end of March I will hand in my Bachelor Thesis, titled "Design a DSL for Interactive Visualisations". My supervisor is Ken Friis Larsen, a professor in the Algorithms and Programming Languages (TOPPS) researcher group. This group is working with topics that I have great interest in besides my interests in Project Management.

2006–2008   **Bachelor of Law**, *University of Aarhus*.

Since I was a little girl I have dreamt about being a lawyer but after a few years in law school I realised it was not for me. But I have learned a lot from my time here, including the ability to be objective even in complicated cases.

Association of Work and Interests

Viking Cats   I have been a board member of Viking Cats for 2 years and just got elected for my second year as President. Viking Cats is a cat association under the American organisation TICA and we arrange huge international cat shows and try to educate people about cats. Furthermore I am responsible for our website and I have been to Russia to share my knowledge in arranging big events.

DIKUrevyen   *DIKUrevyen* is the oldest student revue in Denmark. I had the main responsibility with 2 others for almost 3 years for this association involving writing material, organising seminars for acting, singing and dancing, and a lot of other practical things. Furthermore I was responsible for the economy. In 2013 I was head responsible for the 40 year anniversary - a very special revue.

Canteen - association   The Canteen association is a student kitchen driven by students. We make sure that there is a place to hang out, study and meet new friends across the generations while cooking dinner and so on.

Association for Café Operation anno 1993   Our student bar, also called *Caféen?*, at the Science Faculty. I have been a volunteer for 3 years and the cashier for 2 years. It is a place where you can meet a lot of new people you normally would not meet.

RKG   RKG is the tutor group. We arrange the events for all the new students every year such as campus days, trips and so on. The work starts about 6 months before the new students arrive.

Interests   In general my interests are based on the learning part. I love to learn new things and gain new knowledge. Also I use a lot of time assisting the younger generations because I know how hard it can be starting out at Computer Science. Especially if you have no experience before you start. When I do not work or study I spend a lot of time in Noerrebro Climbing Club. I started climbing a year ago and I really love the way you can challenge yourself in so many ways.
